

Section 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product Identifier

Product name TiONA® RCL-3, TiONA® RCL-69, TiONA® RCL-722, TiONA® 595, TiONA® 696
CAS No 13463-67-7

1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended Use Pigment
Uses advised against For use in industrial installations only

1.3. Details of the supplier of the safety data sheet

Supplier Address Tronox Pigment Bunbury Ltd.
 ABN: 50 008 683 627
 Lot 350, Old Coast Road, Australind
 WA 6233
 TEL: (08) 9780-8333
 FAX: (08) 9780-8500

For further information, please contact

E-mail address chemprodsteward@tronox.com

1.4. Emergency telephone number

Emergency telephone SGS (APAC) +65 6542 9595 non toll-free
 +800 ALERT-SGS (+800 253 78 747) toll free

Section 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

Classification according to Decree of Minister of Industry No. 23/M-IND/PER/4/2013

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

2.2. Label Elements

Signal Word None

2.3. Other Hazards

None known

Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

Chemical name	weight-%	CAS No
Titanium dioxide	>80	13463-67-7

Section 4: FIRST AID MEASURES

4.1. Description of first aid measures

Inhalation Remove to fresh air. If symptoms persist, call a physician.

Skin contact	Wash skin with soap and water. If skin irritation persists, call a physician.
Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Do NOT induce vomiting. If symptoms persist, call a physician.
Self-protection of the first aider	Use personal protective equipment as required.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms No information available

4.3. Indication of any immediate medical attention and special treatment needed

Note to physicians Treat symptomatically

Section 5: FIRE FIGHTING MEASURES

5.1. Extinguishing media

Suitable Extinguishing Media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media None known based on information supplied

5.2. Special hazards arising from the substance or mixture

Specific hazards arising from the chemical Avoid creating dust

Hazardous combustion products Non-combustible

5.3. Advice for firefighters

Special protective equipment for fire-fighters Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.

Section 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions Avoid contact with eyes and skin. Avoid creating dust. Use personal protective equipment as required.

For emergency responders Use personal protection recommended in Section 8.

6.2. Environmental precautions

Environmental Precautions Do not flush into surface water or sanitary sewer system. Do not allow into any sewer, on the ground or into any body of water.

6.3. Methods and material for containment and cleaning up

Methods for Containment Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal.

Methods for cleaning up Take up mechanically, placing in appropriate containers for disposal.

Prevention of secondary hazards Clean contaminated objects and areas thoroughly observing environmental regulations.

6.4. Reference to other sections

Reference to other sections See section 13 for more information.

Section 7: HANDLING AND STORAGE

7.1. Precautions for safe handling

Advice on safe handling Avoid contact with skin, eyes or clothing. Avoid generation of dust. Ensure adequate ventilation, especially in confined areas.

General hygiene considerations Do not eat, drink or smoke when using this product. Take off all contaminated clothing and wash it before reuse. Keep working clothes separately. Regular cleaning of equipment, work area and clothing is recommended. Handle in accordance with good industrial hygiene and safety practice. Contaminated work clothing should not be allowed out of the workplace.

7.2. Conditions for safe storage, including any incompatibilities

Storage Conditions Keep container tightly closed in a dry and well-ventilated place.

Packaging materials Product may be packaged in normal commercial packaging; paper or plastic material.

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

Exposure Limits

Chemical name	Indonesia	Malaysia	Taiwan	Australia	New Zealand
Titanium dioxide 13463-67-7	TWA: 10 mg/m ³	TWA: 10 mg/m ³	TWA: 10 mg/m ³	TWA: 10 mg/m ³	TWA: 10 mg/m ³

8.2. Exposure controls

Engineering controls Showers
Eyewash stations
Ventilation systems
Extraction to remove dust at its source
Ensure adequate ventilation, especially in confined areas

Personal Protective Equipment

Eye/face Protection Wear safety glasses with side shields (or goggles).

Hand protection Wear protective gloves.

Skin and Body Protection Long sleeve clothing. Wear suitable protective clothing.

Respiratory protection If exposure limits are exceeded, use suitable certified respirators. In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards None under normal processing.

Environmental exposure controls Prevent product from entering drains.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

Physical State solid
Appearance Powder
Odor None
Color white
Odor threshold Not applicable

Property	Values	Remarks • Method
pH	6-9	10g/100ml aqueous solution
Melting point/freezing point	1830 °C	Melting point / melting range
Boiling point / boiling range	2972 °C	-
Flash Point		Not applicable
Evaporation Rate		Not applicable
Flammability (solid, gas)		Not flammable

Flammability Limit in Air		
Upper flammability limit:		Not applicable
Lower flammability limit:		Not applicable
Vapor pressure		Not applicable
Vapor Density		Not applicable
Specific gravity	3.7-4.1	Not applicable (water = 1)
Water solubility	Insoluble in water	-
Solubility(ies)	Insoluble in common solvents	-
Partition coefficient		No data available
Autoignition Temperature		Not applicable
Decomposition temperature		Not applicable
Kinematic viscosity		Not applicable
Dynamic viscosity		Not applicable
Explosive properties	Not an explosive	
Oxidizing properties	None known	
 9.2. Other information		
Softening point	No information available	
Molecular weight	Not applicable	
VOC content (%)	None	
Density	~ 4 kg/L	
Bulk Density	No data available	

Section 10: STABILITY AND REACTIVITY

10.1. Reactivity

Reactivity None known based on information supplied

10.2. Chemical stability

Stability Stable under normal conditions

Explosion data

Sensitivity to Mechanical Impact Not impact sensitive

Sensitivity to Static Discharge Not sensitive

10.3. Possibility of hazardous reactions

Hazardous polymerization None under normal processing

Possibility of hazardous reactions None under normal processing

10.4. Conditions to avoid

Conditions to Avoid Dust formation

10.5. Incompatible materials

Incompatible Materials None known based on information supplied

10.6. Hazardous decomposition products

Hazardous decomposition products None known based on information supplied

Section 11: TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects

Product Information

Information in this section is a summary of the conclusions of the chemical safety assessment conducted under REACH. Product does not present an acute toxicity hazard based on known or supplied information.

Inhalation

As a nuisance dust, prolonged exposures above recommended levels may cause adverse effects on the lung. Temporary drying effect and/or irritation of mucous membranes may result from excessive exposure. Exposure to dust may aggravate pre-existing respiratory conditions.

Eye Contact	Inert foreign body hazard only.
Skin contact	Titanium dioxide does not penetrate either intact or abraded human skin. Prolonged contact may result in rashes/irritations due to drying of the skin and/or mechanical abrasion related to skin-to-clothing contact or skin-to-skin contact.
Ingestion	No data available

Component Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Titanium dioxide	> 5000 mg/kg (Rat)	-	> 6,82 mg/L (Rat) 4 h

Skin corrosion/irritation	Titanium dioxide was not classifiable as a skin corrosive or irritant based on in vivo test results for titanium dioxide submitted in the European Union (REACH) joint submission registration dossier for the substance.
Serious eye damage/eye irritation	Titanium dioxide was not classifiable as an eye irritant based on in vivo test results for titanium dioxide submitted in the European Union (REACH) joint submission registration dossier for the substance.
Sensitization	No information available
Germ Cell Mutagenicity	Titanium dioxide was negative when tested in vitro in bacterial reverse mutation assays and in mammalian cell gene mutation and clastogenicity assays as well as when tested in vivo.
Carcinogenicity	Titanium dioxide is listed by IARC as possibly carcinogenic to humans (Group 2B). This listing is based on inadequate evidence of carcinogenicity in humans and sufficient evidence in experimental animals. In lifetime inhalation studies of rats, airborne respirable-size titanium dioxide particles have been shown to cause lung tumors at concentrations associated with substantial particle lung burdens and consequential pulmonary overload and inflammation. However, other laboratory animals such as mice and hamsters did not develop lung tumors under similar testing with titanium dioxide. Furthermore, human epidemiology studies do not suggest an association between occupational exposure to titanium dioxide and risk for cancer.

Chemical name	IARC	New Zealand
Titanium dioxide 13463-67-7	Group 2B	-

Legend

*IARC (International Agency for Research on Cancer)
Group 2B - Possibly Carcinogenic to Humans*

Reproductive Toxicity	Titanium dioxide was not classifiable as a reproductive hazard based on in vivo test results for titanium dioxide submitted in the European Union (REACH) joint submission registration dossier for the substance.
Developmental Toxicity Teratogenicity	None known None known
STOT - single exposure	Titanium dioxide is not classifiable based on a lack of significant and/or severe toxic effects in humans or in experimental animals following acute exposures.
STOT - repeated exposure	Repeated inhalation exposures in rats to poorly soluble dusts such as titanium dioxide lead to a pattern of pulmonary effects including inflammation and fibrosis that are not observed in other rodent species, nonhuman primates, or humans under similar conditions. Therefore, titanium dioxide is not classifiable for repeated exposure.
Target organ effects	Eyes, Lungs, Respiratory System

Symptoms No information available

Aspiration Hazard No information available

Section 12: ECOLOGICAL INFORMATION

12.1. Toxicity

Ecotoxicity Titanium dioxide is of low acute aquatic toxicity.

12.2. Persistence and degradability

Persistence and degradability Titanium dioxide is persistent and does not bioaccumulate. Not readily biodegradable.

12.3. Bioaccumulative potential

Bioaccumulation Material does not bioaccumulate

12.4. Mobility in soil

Mobility in soil Not mobile.

Mobility Not mobile

12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment This substance is not considered to be persistent, bioaccumulating nor toxic (PBT). This substance is not considered to be very persistent nor very bioaccumulating (vPvB).

12.6. Other adverse effects

Other adverse effects No information available

Endocrine Disruptor Information This product does not contain any known or suspected endocrine disruptors.

Section 13: DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods

Waste from residues/unused products Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated packaging Do not reuse container. Improper disposal or reuse of this container may be dangerous and illegal.

Section 14: TRANSPORT INFORMATION

IMDG Not regulated

ICAO (air) Not regulated

IATA Not regulated

Section 15: REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National Regulations

Indonesia This SDS complies with the requirements of Annex II of Ministry of Industry No. 23/M-IND/PER/4/2013 (Indonesia)
