

Section 1: PRODUCT AND COMPANY IDENTIFICATION

Product Identifier

Product name TiONA® RCL-3, TiONA® RCL-69, TiONA® RCL-722, TiONA® 595, TiONA® 696

Other means of identification

Synonyms Titanium dioxide

CAS No 13463-67-7

Recommended use of the chemical and restrictions on use

Recommended Use Pigment

Uses advised against For use in industrial installations only

Supplier

Tronox Pigment Bunbury Ltd.
 ABN: 50 008 683 627
 Lot 350, Old Coast Road, Australind
 WA 6233
 TEL: (08) 9780-8333
 FAX: (08) 9780-8500

Emergency Telephone Number

Emergency telephone SGS (APAC) +65 6542 9595 non toll-free
 +800 ALERT-SGS (+800 253 78 747) toll free

E-mail address chemprodsteward@tronox.com

Section 2: HAZARDS IDENTIFICATION

Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Label Elements

Signal Word None

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Other Information

Other Hazards None known
Hazards not otherwise classified (HNOC) Not applicable

Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

Synonyms Titanium dioxide

CAS No 13463-67-7

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Chemical name	weight-%	ENCS	ISHL No	CAS No
Titanium dioxide 13463-67-7	>80	X	Present (5)-5225, (1)-558 (ENCS inventory number,	13463-67-7

			considered an existing substance based on the Industrial Safety and Health Law)	
--	--	--	---	--

Section 4: FIRST AID MEASURES

Inhalation	Remove to fresh air. If symptoms persist, call a physician.
Skin contact	Wash skin with soap and water. If skin irritation persists, call a physician.
Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Do NOT induce vomiting. If symptoms persist, call a physician.
Self-protection of the first aider	Use personal protective equipment as required.
Symptoms	No information available
Note to physicians	Treat symptomatically

Section 5: FIRE FIGHTING MEASURES

Flammable properties	Not flammable
Explosive properties	Not an explosive
Suitable Extinguishing Media	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable Extinguishing Media	None known based on information supplied
Specific hazards arising from the chemical	Avoid creating dust
Hazardous combustion products	Non-combustible
Special protective equipment for fire-fighters	Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.

Section 6: ACCIDENTAL RELEASE MEASURES

Personal precautions	Avoid contact with eyes and skin. Avoid creating dust. Use personal protective equipment as required.
For emergency responders	Use personal protection recommended in Section 8.
Environmental Precautions	Do not flush into surface water or sanitary sewer system. Do not allow into any sewer, on the ground or into any body of water.
Methods for Containment	Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal.
Methods for cleaning up	Take up mechanically, placing in appropriate containers for disposal.
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.

Section 7: HANDLING AND STORAGE

Handling

Advice on safe handling Avoid contact with skin, eyes or clothing. Avoid generation of dust. Ensure adequate ventilation, especially in confined areas.

Storage

Storage Conditions Keep containers tightly closed in a dry, cool and well-ventilated place.

Packaging materials

Product may be packaged in normal commercial packaging; paper or plastic material.

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure guidelines This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies

Chemical name	Japan	ISHL Working Environmental Evaluation Standards - Administrative Control Levels	ACGIH TLV
Titanium dioxide 13463-67-7	TWA: 0.3 mg/m ³	-	TWA: 10 mg/m ³

Engineering controls

Showers
Eyewash stations
Ventilation systems
Extraction to remove dust at its source
Ensure adequate ventilation, especially in confined areas

Personal protective equipment

Respiratory protection

If exposure limits are exceeded, use suitable certified respirators. In case of insufficient ventilation, wear suitable respiratory equipment.

Hand protection

Wear protective gloves.

Eye/face Protection

Wear safety glasses with side shields (or goggles).

Skin and Body Protection

Long sleeve clothing. Wear suitable protective clothing.

General hygiene considerations

Do not eat, drink or smoke when using this product. Take off all contaminated clothing and wash it before reuse. Keep working clothes separately. Regular cleaning of equipment, work area and clothing is recommended. Handle in accordance with good industrial hygiene and safety practice. Contaminated work clothing should not be allowed out of the workplace.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State

solid

Appearance

Powder

Color

white

Odor

None

Odor threshold

Not applicable

Property

Values

Remarks • Method

pH

6-9

10g/100ml aqueous solution

Melting point/freezing point

1830 °C

Melting point / melting range

Boiling point / boiling range

2972 °C

-

Flash Point

Not applicable

Evaporation Rate

Not applicable

Flammability (solid, gas)

Not flammable

Flammability Limit in Air

Upper flammability limit:

Not flammable

Lower flammability limit:

Not flammable

Vapor pressure		Not applicable
Vapor Density		Not applicable
Specific gravity	3.7-4.1	Not applicable (water = 1)
Water solubility	Insoluble in water	-
Solubility(ies)	Insoluble in common solvents	-
Partition coefficient		No data available
Autoignition Temperature		Not applicable
Decomposition temperature		Not applicable
Kinematic viscosity		Not applicable
Dynamic viscosity		Not applicable
Explosive properties	Not an explosive	
Oxidizing properties	None known	
Softening point	No information available	
Molecular weight	Not applicable	
VOC content (%)	None	
Density	~ 4 kg/L	
Bulk Density	No information available	

Section 10: STABILITY AND REACTIVITY

Reactivity	None known based on information supplied
Stability	Stable under normal conditions

Explosion data

Sensitivity to Mechanical Impact	Not impact sensitive
Sensitivity to Static Discharge	Not sensitive

Possibility of hazardous reactions	None under normal processing
Hazardous polymerization	None under normal processing
Conditions to Avoid	Dust formation
Incompatible Materials	None known based on information supplied
Hazardous decomposition products	None known based on information supplied

Section 11: TOXICOLOGICAL INFORMATION

Acute Toxicity

Product Information	Information in this section is a summary of the conclusions of the chemical safety assessment conducted under REACH. Product does not present an acute toxicity hazard based on known or supplied information
Inhalation	As a nuisance dust, prolonged exposures above recommended levels may cause adverse effects on the lung. Temporary drying effect and/or irritation of mucous membranes may result from excessive exposure. Exposure to dust may aggravate pre-existing respiratory conditions.
Eye Contact	Inert foreign body hazard only
Skin contact	Titanium dioxide does not penetrate either intact or abraded human skin. Prolonged contact may result in rashes/irritations due to drying of the skin and/or mechanical abrasion related to skin-to-clothing contact or skin-to-skin contact.
Ingestion	No data available

Numerical measures of toxicity - Component Information

Component Information

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Titanium dioxide	> 5000 mg/kg (Rat)	-	> 6,82 mg/L (Rat) 4 h

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	Titanium dioxide was not classifiable as a skin corrosive or irritant based on in vivo test results for titanium dioxide submitted in the European Union (REACH) joint submission registration dossier for the substance.
Serious eye damage/eye irritation	Titanium dioxide was not classifiable as an eye irritant based on in vivo test results for titanium dioxide submitted in the European Union (REACH) joint submission registration dossier for the substance.
Sensitization	No information available
Germ Cell Mutagenicity	Titanium dioxide was negative when tested in vitro in bacterial reverse mutation assays and in mammalian cell gene mutation and clastogenicity assays as well as when tested in vivo.
Carcinogenicity	Titanium dioxide is listed by IARC as possibly carcinogenic to humans (Group 2B). This listing is based on inadequate evidence of carcinogenicity in humans and sufficient evidence in experimental animals. In lifetime inhalation studies of rats, airborne respirable-size titanium dioxide particles have been shown to cause lung tumors at concentrations associated with substantial particle lung burdens and consequential pulmonary overload and inflammation. However, other laboratory animals such as mice and hamsters did not develop lung tumors under similar testing with titanium dioxide. Furthermore, human epidemiology studies do not suggest an association between occupational exposure to titanium dioxide and risk for cancer.

Chemical name	Japan	IARC
Titanium dioxide 13463-67-7	2	Group 2B

Legend

*IARC (International Agency for Research on Cancer)
Group 2B - Possibly Carcinogenic to Humans*

Reproductive Toxicity	Titanium dioxide was not classifiable as a reproductive hazard based on in vivo test results for titanium dioxide submitted in the European Union (REACH) joint submission registration dossier for the substance.
Developmental Toxicity	None known
Teratogenicity	None known
STOT - single exposure	Titanium dioxide is not classifiable based on a lack of significant and/or severe toxic effects in humans or in experimental animals following acute exposures.
STOT - repeated exposure	Repeated inhalation exposures in rats to poorly soluble dusts such as titanium dioxide lead to a pattern of pulmonary effects including inflammation and fibrosis that are not observed in other rodent species, nonhuman primates, or humans under similar conditions. Therefore, titanium dioxide is not classifiable for repeated exposure.
Target organ effects	Eyes, Lungs, Respiratory System
Aspiration Hazard	No information available

Section 12: ECOLOGICAL INFORMATION

Ecotoxicity	Titanium dioxide is of low acute aquatic toxicity.
Persistence and degradability	Titanium dioxide is persistent and does not bioaccumulate. Not readily biodegradable.
Bioaccumulation	Material does not bioaccumulate
Mobility in soil	Not mobile.
Mobility	Not mobile
Other adverse effects	No information available
Endocrine Disruptor Information	This product does not contain any known or suspected endocrine disruptors.

Section 13: DISPOSAL CONSIDERATIONS

Waste from residues/unused products	Disposal should be in accordance with applicable regional, national and local laws and regulations.
Contaminated packaging	Do not reuse container. Improper disposal or reuse of this container may be dangerous and illegal.

Section 14: TRANSPORT INFORMATION

IMDG	Not regulated
ADR	Not regulated
ICAO (air)	Not regulated
IATA	Not regulated

Section 15: REGULATORY INFORMATION
